## FRONTEND DEVELOPER | MERN STACK DEVELOPER

---

### REACT.JS | NEXT.JS | NODE.JS | EXPRESS.JS | MONGODB

I am a passionate Frontend and MERN Stack Developer with hands-on experience in building dynamic, scalable, and responsive web applications. My core skills include React.js, Next.js, JavaScript, and Tailwind CSS for crafting modern UIs, as well as Node.js, Express.js, and MongoDB for full-stack development. I specialize in building accessible, component-based architectures, API integration, and performance-optimized web solutions. With strong debugging skills, team collaboration, and deployment experience, I deliver high-quality, production-ready application.

## WORK EXPERIENCE

---

**SUPPORTTA SOLUTIONS PVT LTD** – Kottayam, Kerala

09/05/2025

### Frontend Developer Intern

- Hands-on training in modern frontend technologies including **React.js**, **Next.js**, **TypeScript**, **JavaScript**, and **Tailwind CSS**.
- Building responsive, accessible, and high-performance UI components with **Tailwind CSS** and **Next.js** to meet pixel-perfect design standards.
- Developing and optimizing frontend architecture using **component-based design patterns**, enhancing maintainability and scalability of the application.

**TECHMINDZ** – Kochi, Kerala

12/02/2025

### MERN Stack Developer Internship

- Developed and maintained full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Collaborated with the development team to build responsive and user-friendly interfaces.
- Integrated backend APIs to enhance functionality and optimize application performance.
- Assisted in debugging, testing, and deploying applications to ensure seamless user experience.

## EDUCATION

---

- Carmel Polytechnic College, Kerala  
Computer Engineering,  
08/2021 - 06/2024
- St. Joseph Hss Vayattuparamba, Kerala  
+2- higher secondary education

- St.Mary's Minor Seminary Karunapuram, Kerala
- St. Mary's Champakulam, Kerala  
SSLC- higher school

## PROFESSIONAL SKILLS

---

- Proficient in MERN stack (MongoDB, Express.js, React, Node.js)
- Frontend development with React.js, Next.js, Java Script, Type Script and responsive UI design
- Backend development, RESTful API integration, and database management
- Content management System (Payload)
- Debugging, testing, and deployment of web applications
- Version Control: Git, GitHub
- Other: Postman, JWT Authentication, Cloudinary, Stripe Payment Integration, Vercel, Render

## PROJECT

---

### Freelance Project

- Built a dynamic and content-driven corporate website using **Payload CMS** for backend and **Next.js** with **TypeScript** for the frontend
- Created reusable components, custom templates, and server-side rendering (SSR) for SEO optimization
- Followed scalable folder structure and applied best practices in TypeScript and API integration for performance and maintainability

### Kerala Turf Booking System | MERN Stack

**Live Demo:** [turf-booking-eta.vercel.app](https://turf-booking-eta.vercel.app)

- Implemented features like dynamic slot booking, booking history, receipt generation, role-based authentication, and Razorpay payment integration
- Frontend built using React, CSS, and Vite; backend developed with Node.js, Express.js, MongoDB Atlas, Mongoose, and secured with JWT.
- Developed a responsive and modular client-server architecture with RESTful APIs, ensuring scalability and smooth frontend-backend communication.

### E-Commerce Website

**Live Demo:** <https://e-commerce-byg4.vercel.app/>

- Developed admin and user interfaces to manage products and track orders seamless purchasing without login/signup.
- Implemented a clean and modular architecture with RESTful APIs, ensuring smooth communication and a user-friendly experience.
- Built a full-stack E-commerce web application using Next.js, Node.js, Express.js, and MongoDB, allowing users to seamlessly browse and purchase products without login or signup.

### Coffee Shop Website

**Live Demo:** <https://coffee-two-inky.vercel.app/>

- Developed a frontend-focused Coffee & Tea Shop website using Next.js with TypeScript, featuring a clean and responsive layout for an engaging user experience.
- Integrated Framer Motion for smooth animations and interactive transitions, enhancing the overall user experience.

- Structured the project with reusable components and scalable code architecture, ensuring maintainability and performance across devices.

## VOLUNTEER EXPERIENCE

---

**Techfest Organizer** - *Alappuzha, Kerala*

12/2023

- Coordinated and managed the technical festival, ensuring smooth execution of events.
- Worked with teams to handle registrations, promotions, and event scheduling.

## CERTIFICATES

---

- Mern Stack, 09/2024 - 01/2025
- Diploma in Computer Engineering by SBTE
- AI And ML by Laxmiinfotek
- Career Awareness by MC Square
